ST. PETERBURG, Jan. IL.—After a thorough investigation I learned that the lamentable riots, which so shocked the world has week, were purely socialistic hadaciously and cambridge generated under the name of workmen's demonstration.

The whole purpose of the movement was shown by Father Gopon, who, after welling out a honey-worded message of peace for publication to the world at large, breathing meckness and good will in avery line, went down to a workmen's club, and, throwing off the mask, addressed a flowen few telling then the real object of the morrow's demonstration was to senarate the Emperor from his ministers. The only manner in which the Grand Duke Vladimir could have been connected with the millitary action was in rase martial law was proclaimed, and only in such case could a man of his high rank be called on to take part. rolice and the populace continue to swell the number of dead.

Trade and industry are completely at a standstill and the presence of thousands of idle workmen who have been out of employment for months and are starving and desperate adds a factor of the greatest danger which is not present to the same extent in St. Petersburg, where the Government orders for war purposes have kept the factories busy.

The American Vice-Consul at Warfaw Witold Fouchas, tolegraphs that many stores, chiefly Russian, have been pillaged by mobs and factories, without exception, are closed.

A general strike is in effect. Those who are not willing to walk out are compelled to join the strike by threats. Mr. Fouchas saw no improvement in the situation up to late last night and reported the receipt of bad news from Lodg and Radom.

It is conservatively estimated that the number of killed or wounded at Warsaw is about one hundred.

about one hundred. Many Out of Work.

Many Out of Work.

The rioting in Poland will largely affect the economic situation. The factories at Warsaw, Lodz, Petrokoff and other industrial centres in Poland have been compelled to gradually reduce their output and decirease their working forces since the outbreak of the war, which has almost entirely closed the Sherian and Manchurlan markets.

The result has been that thousands of workmen have been thrown out of employment for many months, furnishing a horde of hungry dissatisfied, desperations and incendiary spirit.

It is feared that a large proportion of those thousands may be utilized by the revolutionary organizations in Poland, which is the hotbed of socialism, and the movement may develon a purely nolitical character, though there is no indication so far of any co-operation on the part of the intelligent classes of the Pollah population, which are averse to a revolutionary novement.
